

# COVID-19 Healthcare Mask Collaboration - South OC

## Disclaimer

DISCLAIMER: **These masks are not sterile** or certified by a medical professional. We are all volunteers and do not know the filtration specification of the fabric material provided and make no claims of its effectiveness. All masks sewn and distributed by a member of this Facebook group are provided by volunteers free of charge and no claims are made as to our mask's medical efficacy. All volunteers are to be held harmless. To reduce possible infection of a healthcare worker, we recommend the healthcare worker wash the masks in hot water prior to use and request that their medical facility use medical-grade sterilization techniques.
